

Component Video Cables

Lynn Electronics' Component Video Cables offer high-quality stunning detail and vibrant color for today's High Definition TV and Theater purposes. These high quality interconnect cables deliver maximum picture quality when compared against composite or s-video cables.

Ultra low loss 75 ohm OFC (Oxygen Free Copper) center conductors in conjunction with a foam dielectric offers enhanced picture quality and performance. Color-coded over molded connectors attached to a flexible jacket ensuring easy installation and identification. 100% coverage provided protection against EMI/RFI interference, and gold contacts ensure a clean, precise connection everytime.

- 75-ohm oxygen-free copper center conductor transfers brilliant detail, color and brightness
- Corrosion-resistant, precision 24K gold-plated connectors guarantee a lifetime of superior quality
- Fully molded connectors provide excellent strain relief
- Flexible PVC jacket for easy installation and routing
- Connects video sources with component video outputs to televisions, projectors with component video inputs
- 480i, 480p, 720i, 720p, 1080i, 1080p
- UL rated
- Various configurations available
- Low cost and high performance
