

LYNN ELECTRONICS

April 6, 2020

To Whom it May Concern:

Lynn Electronics has been deemed, in writing, an essential company by the Federal Government as well as the State of Pennsylvania. All our locations are open for business during this unprecedented time.

While Lynn routinely reviews risk and maintains a business continuity strategy to minimize the threat of disruptions to our business and supply chain, COVID-19 is unprecedented in its scope and speed. As a part of Lynn's planning and response to COVID 19, we want to assure you that we have been taking action to address the risk of a supply chain disruption that could occur due to the spread of the virus.

That being said, we ask for patience and understanding as we manage orders at this time.

We consider ourselves very fortunate to continue to work through this global crisis. We do not take this responsibility lightly. We will work tirelessly through this time to deliver the support needed to maintain our national infrastructure. We are committed to ensuring that our operations continue running and that our response during this time is prompt and transparent to our customers and vendor partners.

Thank you,

Mike Boulanger

President/CEO
